

Open source opportunities

Manaswini Das

Google Code-in

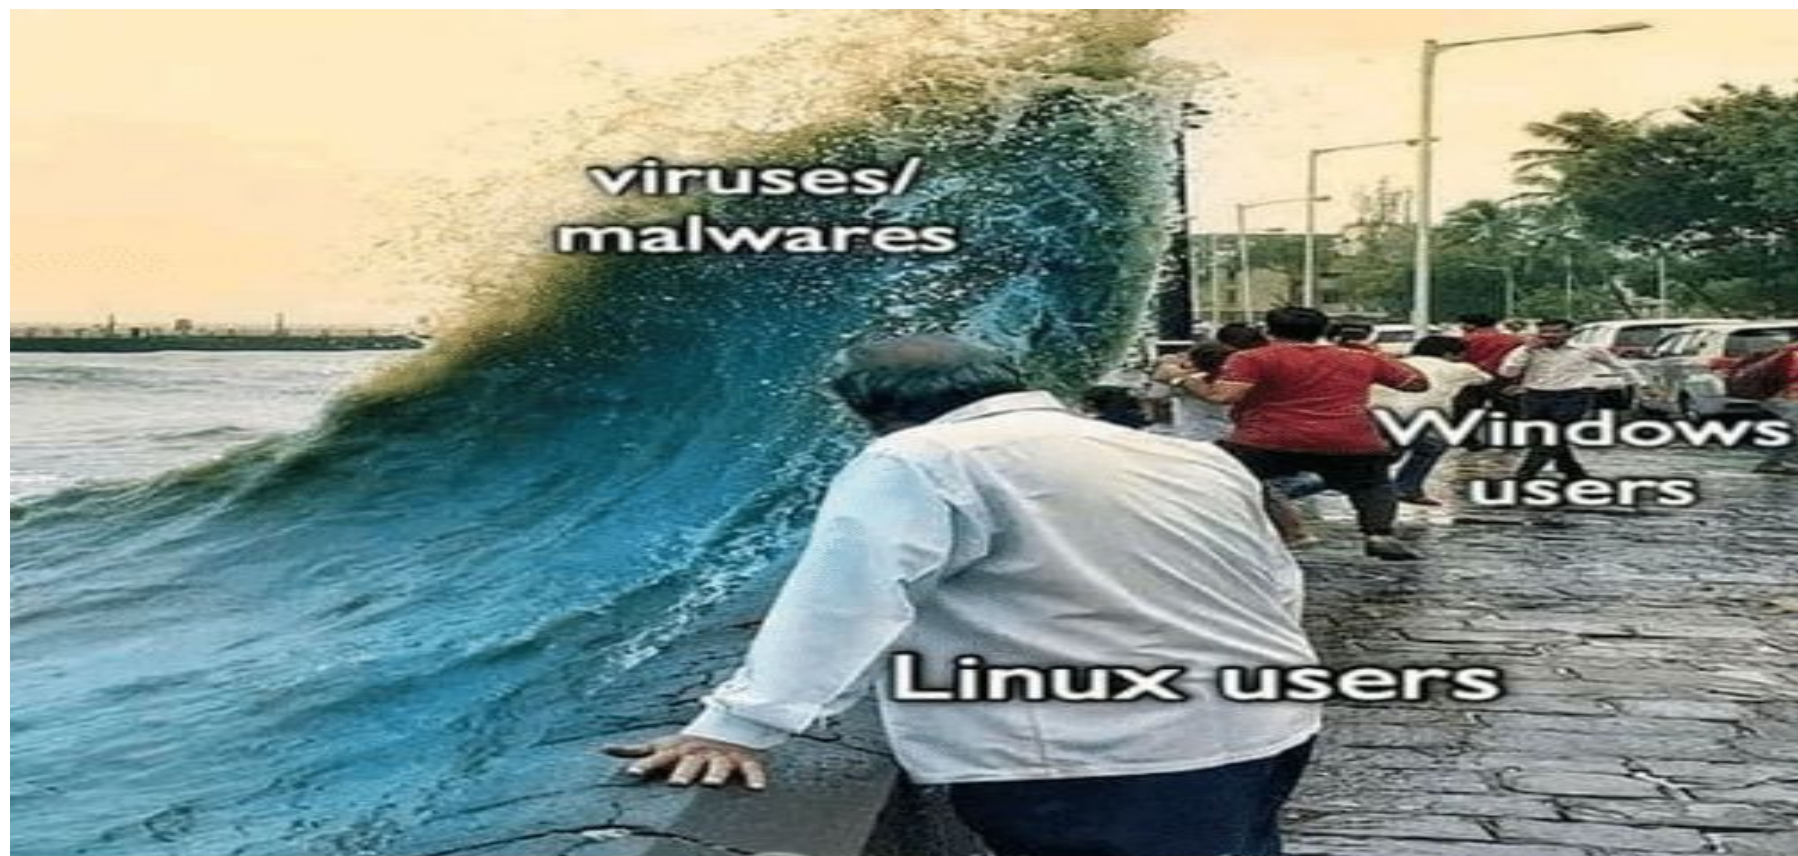

GIRLSCRIPT
Summer Of Code

What is open source?

Why open source ?

- Of course, it's free and accessible
- Attracts like-minded people
- Exercise control over code that you like(or don't)
- Rapidly changing for the better
- Build a portfolio
-It's fun!

Mac OS?

How is open source changing lives ?

- People, irrespective of technical backgrounds unite to make software better
- No one judges you
- Web is more accessible
- It's everywhere (top 500 supercomputers run Linux)

Open source Opportunities

- Internships and fellowships:
 - Outreachy
 - Google Summer of Code
 - GirlScript Summer of Code
 - Hacktoberfest
 - ...and lots more
- Makes way for new ideas, eventually leading to startups
- Opportunity to be mentor or a maintainer and take the power of community forward
- Speak at conferences and events and meet like-minded people
- Learn best practices in coding
- Gitpay and other platforms which provide single contribution economic benefits
- Bug bounty programs

“In real open source, you have the right to
control your own destiny”

- Linus Torvalds

What can you contribute?

- Code
- Tests
- Bug reports
- Answering questions
- Documentation and blog posts
- Graphics
- User interface and User experience
- Volunteering and marketing in suitable platforms
- Organising meetups and/or conferences

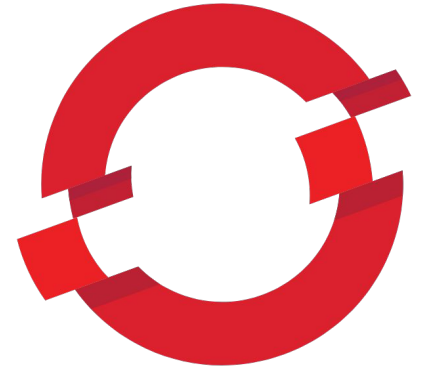

How do you get started?

- Learn basics about open source platforms
- Find your passion
- Find a project associated with your passion
- Talk to volunteers and/or project maintainers
- Find newcomer-friendly issues
- Integrate into the community
- Pass it on
